The RapidReader App

Tired of tedious manual data entry and paperwork in your drug screening process? Say hello to efficiency with The RapidReader App: A reliable solution that supports users with collecting, reporting, and uploading drug screen results, all from a mobile device.

Scan QR code to see the app in action!

Streamline your drug screening workflow with the power of AI.

The **RapidReader App** is a state-of-the-art screening software application that allows users to streamline their drug screening process. The RapidReader App uses AI technology to capture drug screen results from a photo, records and auto-fills the predicted results, and generates a Chain of Custody form.

The **RapidReader App** is compatible with a wide range of our Rapid Response™ drug screening products - trusted for over a decade to provide fast, reliable and accurate results.

Efficient

- Accelerated workflow.
- Average processing time of just 2½ minutes!
- Accessible from anywhere.

Automated

- Innovative AI technology.
- Auto photo capture and record predicted results directly from test cups and panels.

Streamlined

- Intuitive user experience.
- Securely review & confirm results.
- Integrates seamlessly with users' record and internal data management systems.

5X Faster!

Process test results and generate a Chain of Custody in just 2 ½ minutes, 5x faster than manual inputs*. Save time and streamline your screening process with automated results.
*Based on time to record results and create equivalent paper chain of custody documents.
Collect a touchless signature

Capture and record results from a photo

Review and confirm results in seconds

Share and upload paperless Chain of Custody forms

"The RapidReader App has been a game changer for our business. In a world of evolution and rapidly advancing technology along with the high volume we experience, it was imperative we move to an automated drug screen process and that's exactly what we did with Lochness. With the Rapid Reader App, **we were able to drastically decrease the amount of time it takes to onboard while increasing our candidate and recruiter experience.** *They also provide excellent customer service and are always available when we need them. I highly recommend Lochness for all of your screening needs"!*

– Hailey Fernandez, Director of Corporate Services with Effex Management Solutions

Using a PMS, ATS, or EMR System?

We offer custom integrations with your systems, allowing your team to save screening results to your system with the click of a button, no complicated file transfers required.

Onboarding is a breeze

We offer comprehensive training resources, demos, and ongoing technical support to ensure every member of your team can screen with confidence.

Additional features available by request:
Harm Reduction Testing, Anonymous Results, No Internet Required, Offline Testing with Later Upload, and Track Substance Result Trends.

Compatible with our Rapid Response™ Products

The RapidReader App is 100% compatible with our One Step Cups (Flat), Test Panels, Saliva Test Cups, and Oral Fluid Lollipop Drug Tests.
